

# Quick Start Guide

The new 5G Cellular Gateway introduces the next generation of superior wireless utility management. It includes a simple plug-n-play setup and facilitates the communications of thousands of wireless devices on a single property. This cloud-connected Gateway is easily and securely connected to the internet using Ethernet, Wifi, or built-in 5G cellular.

## Package Contents

- A) GW4   B) Mounting Plate   C) Sheetrock Anchors & Screws  
 D) Ethernet Cable   E) Power Supply   F) 5G Cellular Antenna

## NextCentury Connect™ Technology

NextCentury Connect™ wireless technology is a secure, efficient, and reliable method for communication. This technology exists to ensure excellent signal integrity in even the most challenging wireless environments. Long-distance 900MHz radios and smart frequency hopping minimize interference, while a bi-directional encryption engine keeps data private and secure.

# Installation

## Where to Install

Where possible, select installation locations:

- Away from immediate obstructions (i.e. network racks, metal doors)
- Not directly mounted on metal supports or beams

## Mounting On Wall

## Connect to Power

# Internet Connection

---

## Ethernet

Connect the provided ethernet cable to the Gateway and a data port coming from a router or network switch. The Power LED will turn **blue** once online.

## WiFi

Utilizing the **Direct Connect** tool on the NextCentury Mobile App, connect to your Gateway.

- Select the Configure button
- Tap on “Select Network” under the WiFi section
- Select your WiFi network and enter the password

Once connected and online the Power LED will turn **blue**.

## Cellular

To begin monthly service, select the “Enable Cellular” toggle on the website or mobile app, activating a simple no-contract cellular service.

- Cellular Signal LED will indicate if a connection is available
- After enabling and online the Power LED will turn **blue**

## Direct Connect

Log in to the NextCentury Mobile App, and select the Direct Connect tool from the left menu bar. Select your Gateway from the list of available nearby devices. Once connected, advanced configuration and setup options are available for your Gateway.
